

NIAP 2017 3rd Quarter Progress

Product Validations

18 evaluations added to the PCL

Evaluations by Technology

- VPN IPSEC (VPN): 1
- Mobility (MD): 1
- Enterprise Security Management (ESM): 2
- Network Device (ND): 9
- Software Application (SW App): 2
- Full Disk Encryption (FDE): 2
- Firewall (FW): 1

Stakeholder Engagement

- Briefed the Board of Directors for the Trusted Computing Group (TCG) to discuss opportunities for government-industry collaboration. NIAP emphasized the importance of standards-based commercial products used in National Security Systems and the ongoing development of the DSC cPP, which defines security requirements and test activities for hardware components that store and protect credentials.
- Participated in the AFCEA Mobility Group meeting. NIAP provided an overview of mobility in the federal government, DOD's adoption of mobile technology, and challenges faced by government and industry.
- Held the Fall Validator and CCTL workshop for discussion of issues arising from evaluations as well as updates on tools and website capabilities, crypto transitions and configuration guidance.
- CCUF engagement through quarterly meetings provided opportunities to discuss topics of mutual interest to CC users and NIAP.

Protection Profile Development

PP Updates in Progress:

- File Encryption Module v2.0
- Peripheral Sharing Switch (PSS) Base Protection Profile v1.0
- Certification Authority Module v2.1
- VPN Client Module v2.1

PPs in Development:

- PSS Keyboard/Mouse Module v1.0
- PSS Video/Display Module v1.0
- SSL/TLS Inspection Proxy Module
- Dedicated Security Component collaborative Protection Profile
- Application Software collaborative Protection Profile

cPP Endorsements:

- Network Device Collaborative Protection Profile 2.0

Common Criteria Recognition Arrangement

- **CCDB Crypto WG meetings held in Bonn, Germany**
 - Finalized SD rationale for CCDB approval
 - Discussed requirements for cryptographic protocols
 - Reviewed ISO SFR revisions for Crypto WG consistency
 - Next Meeting: during CCUF meetings in October
- **Comments to ISO for 15408 (Common Criteria) revision** NIAP reviewed and provided comments on the working drafts of ISO 15048 with a goal of addressing the evolution of security functionality in commercial IT products.
- **Planning for October CCDB meetings in Berlin**
